Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Becker argued that the cited reference (Massa) does not disclose or suggest, the foregoing features of claim 1, at least with respect to "said address of said client data buffer for a data transfer responsive to a size of a data block to be transferred" and "plural data buffers of different sizes". Examiner's pointed out in Massa reference, col. 13, lines 31-63 and col. 11, lines 32-53 for teaching the limitations "said address of said client data buffer for a data transfer responsive to a size of a data block to be transferred" and "plural data buffers of different sizes", respectively. No further agreement was reached.
